

CLINICAL ACUPUNCTURE ORTHOPEDICS & FIBROMYALGIA

Mark Hanson, DC, L.Ac

August 20, 2017

This course will cover the diagnosis of headaches according to Chinese Medicine principles and the treatment for specific types of headaches according to location and etiology. Specific treatment protocols will be discussed. The course will cover the etiology of neck, mid back and low back pain as well as upper and lower extremities conditions according to Chinese Medicine and varying treatment protocols will be taught. Fibromyalgia is a very common condition in the chiropractic practice. We will review the causes according to Chinese patterns that relate to Fibromyalgia; several different acupuncture treatments will be given for this crippling condition.

*6 hours DC CE credit for qualified doctors***
