

## Orthopedic Diplomate Program Registration Form

**The Tennessee Chiropractic Association is pleased to partner with the University of Bridgeport to offer the 50 hours of live education required to obtain a Diplomate of the Academy of Chiropractic Orthopedists (DACO).**

Designed specifically for practicing chiropractors, this new post-graduate program puts you on the path to becoming board-certified in Orthopedics and Neuromusculoskeletal Medicine—a credential that makes you a vital member of the primary care team. Through this TCA-sponsored opportunity, doctors in Tennessee and around the country will have access to both the education and the respected certification on which more and more organizations and patients are relying for physician selection.
