August 20, 2017

The Drs. Wolfson are coming to Tennessee. Not familiar with this powerhouse couple? Dr. Jack is a cardiologist turned holistic and natural after meeting his wife, Dr. Heather, a chiropractic physician. Known as The Paleo Cardiologist, Dr. Jack is a huge proponent of chiropractic – from discussing the benefits of the adjustment on CNN to some of the biggest chiropractic stages including Cal Jam, Parker Dallas, Life U, Life West and Chirofest. At Paleo F(x) and The Truth about Cancer, hundreds of thousands heard the Drs. Wolfson shout out why everyone needs chiropractic and they are bringing their energy to our stage.

They will discuss natural heart health, raising a holistic family, along with a brief talk on natural immunity and the vaccine controversy. You do not want to miss this event. Learn on the weekend and implement on Monday.
